

We're different,
we're all the same
Different families
all different names
Different hair
and eyes
green, brown or blue

We're different,

we're all alike

We all need love,

this is right

We're all part of one big

world, me and you.

We are little people
Different every one

Big and tall,

short and small

Makes life really fun

We're different,
we're all the same
Different families
all different names
Different hair
and eyes
green, brown or blue

We're different,

we're all alike

We all need love,

this is right

We're all part of one big

world, me and you.

Shades of many colors
White or black or brown

Some have legs of
wheels

Rolling all around

We're different,
we're all the same
Different families
all different names
Different hair
and eyes
green, brown or blue

We're different,

we're all alike

We all need love,

this is right

We're all part of one big

world, me and you.

We're different,
we're all the same
Different families
all different names
Different hair
and eyes
green, brown or blue

We're different,

we're all alike

We all need love,

this is right

We're all part of one big

world, me and you.

We're Different,
We're All the Same

Singing With Shari:
Get Ready CD #7
